The phrase "rights of voting" or the word "vote" used in this sub-clause shall be deemed to include not only a vote at a meeting but the right to elect or appoint directors, any consent to or approval of any arrangement scheme or resolution or any alteration in or abandonment of any rights attaching to any Investment and the right to requisition or join in a requisition to convene any meeting or to give notice of any resolution or to circulate any statement.

- 2.10.3. Not later than two (2) Business Days of receipt, the Trustee shall forward to the Management Company all notice of meetings and all reports and circulars received by the Trustee as the holder of any investment.

2.11. Transactions with Connected Persons

- 2.11.1. The Fund Property shall not be invested in any security of a company if any director or officer of the Management Company individually owns more than five percent (5%) of the total nominal amount of the securities issued or collectively the directors and officers of the Management Company in their individual capacities own more than ten percent (10%) of those securities.
- 2.11.2. The Fund shall not purchase from or sell any security to the Management Company or to any director, officer or employee of the Management Company or to any person who beneficially owns ten percent (10%) or more of the equity of the Management Company save in the case of such party acting as an intermediary.
- 2.11.3. For the purpose of clause 2.11.1 and 2.11.2 above, the term Director, Officer and Employee shall include spouse, lineal ascendants and descendants, brothers and sisters.
- 2.11.4. Cash forming part of the property of the Fund may be placed as deposits with the Trustee or an institution licensed to accept deposits.
- 2.11.5. All transactions carried out by or on behalf of the Trust shall be made as provided in the Constitutive Documents and shall be disclosed in the Fund's annual accounts.

Subject to the Rules, any transaction between the Fund and the Management Company or any of their respective Connected Persons as principal shall only be made with the prior written consent of the Trustee.

2.12. Risk Disclosure

- 2.12.1. Investors into the Fund must realize that all investments in mutual funds and securities are subject to market risks. Any target return / dividend payout cannot be guaranteed and it should be clearly understood that the portfolio of the Fund is subject to profit rates and equity market fluctuations and other risks inherent in all such investments. The risk emanates from various factors that include, but are not limited to:
- 2.12.2. **Credit Risk** - Credit risk is comprised of default risk, credit spread risk and downgrade risk. Each can have a negative impact on the value of an Islamic-income security including money market instruments.
- a **Default risk** is the risk that the issuer will not be able to pay the profit / principal obligation, either on time or at all.
- b **Credit spread risk** is the risk that there will be an increase in the difference between the return / profit rate of an issuer's bond and the return / profit rate of a bond that is considered to have little associated risk (such as a government guaranteed Islamic Sukuk bond or treasury bill). The difference between this return / profit rates is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread may decrease the value of Islamic income securities including money market instruments.

- c **Downgrade risk** is the risk that a SECP approved credit rating agency or any other reputed international credit rating agency will reduce the credit rating of an issuer's securities. Downgrades in credit rating will decrease the value of those securities.
- 2.12.3. **Currency Risk** - The Fund may be affected favorably or unfavorably by changes in currencies and exchange control regulations. The income earned by AGIF may also be affected by fluctuations in foreign exchange rates.
- 2.12.4. **Liquidity Risk** - Some companies have limited market float of their issued securities and hence are not actively traded in the stock market / financial markets or they may generally have very few total securities issued and outstanding. Securities issued by such companies may be difficult to buy or sell, which may cause the value of the Funds that buy these securities to rise and fall substantially because any buying or selling of such company securities may have a great impact on that company's security price.
- 2.12.5. **Government Regulation Risk** - Government policies or regulations are more prevalent in some sectors than in others. Funds that invest in these sectors may be affected due to change in these regulations or policies, which directly or indirectly affect the earnings and / or the cash flows and / or any governmental or court orders restraining payment of capital, principal or income of Investee Companies to such companies.
- 2.12.6. **Voluminous Purchase / Redemption of Fund Units Risk** - Any significant transaction made by any investor could significantly impact the Fund's cash flow. If an investor buys large amounts of Units of the Fund, the Fund could temporarily have a high cash balance. Conversely, if a Unit Holder redeems large amounts of Units of Fund, the Fund may be required to meet the redemption by selling securities at an inopportune time. This unexpected sale may have a negative impact on the performance of the investment.
- 2.12.7. **Market Risk** - This risk involves volatility in security prices resulting from their dependence on market sentiment, speculative activity, supply and demand for the securities and liquidity in the market. The volatility in securities prices results in volatility in the NAV based price of the Unit of the Fund.
- 2.12.8. **Other Risks Involved:**
- a Mismanagement of the investee company, third party liability whether through class action or otherwise or occurrence of other events such as strikes, fraud etc., in the company in which the investment is made.
- b Break down of law and order, uncertain political & economical condition, war, terrorist activity, natural disasters etc.
- c Break down of communication systems of the issuers, stock exchanges, clearing house, depository company, etc, or general disruption of satellite system.
- d Senior rights of some creditors over other creditors in the event of winding up.
- 2.13. Disclaimer**
- 2.13.1. Prices of Units of the Fund and income from them may go up or down.
- 2.13.2. Under exceptional (extraordinary) circumstances, the Management Company may declare suspension of redemptions, invoke a queue system or announce winding-up. In such events the investor will probably have to wait for payment beyond the normal period and the redemption amount so determined may be lower than the price at the time the redemption request is lodged. Investors are advised to read the clause 12 of the Fund's Trust Deed for more detailed information regarding this clause.
- 2.13.3. **The Units of the Trust are not bank deposits and are neither issued by, insured by, obligations of, nor otherwise supported by the SECP, any Government agency, the Management Company, the Trustee (except to the extent specifically stated in this document and the Trust Deed) or any of the shareholders of the Management Company or any of the Core Investors or any other bank or financial institution.**
