### REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY FOR THE NINE MONTH PERIOD ENDED 31 MARCH, 2015

### To our valued Unit Holders,

On behalf of the Board of Directors, I am pleased to present the Financial Statements of Alfalah GHP Capital Preservation Fund (AGCPF) for the nine months ended 31 March, 2015. The Financial Statements of the Scheme prepared by the Management Company present true and fair view of the state of affairs of the Scheme and results of their operations, cash flows and movement in unit holders' funds.

### **Economic Review**

Macroeconomic indicators improved considerably over 3QFY15, steering the country to a more progressive path and garnering positive feedback from foreign lenders, international rating agencies and multilateral organizations that assist Pakistan.

The IMF program is well on track and saw one tranche of USD 550m disbursed and another approved from the agency in the wake of successful accomplishment of majority of stipulated targets. Foreign financing from the IMF, along with 9.5% YoY growth in remittances, has helped the country increase its foreign exchange reserves from USD 15.3bn (Dec-14) to USD 16.2bn (Mar-15). With lower oil prices translating into a lower trade deficit, reserves are expected to increase further by year end.

Over the first two months of the quarter under review, trade deficit fell by 28% on the back of lower oil import bill. Support lent by lower oil prices to the trade account can be observed from the contraction of 43% and 11% seen in the oil import bill over 3QFY15 (Jan-Feb) and 8MFY15 respectively. Remittances also rose by 15% to reinforce the current account, allowing the latter to curb the deficit by 34%.

Lower oil prices, timely foreign inflows and a stable Pak Rupee helped keep inflation in check over the quarter. Headline inflation averaged at an eleven year low of 3.2% during the period, down 490bps on YoY basis and down 150bps on QoQ basis. In addition to declining fuel prices, inflation was also influenced by falling food prices in the wake of a bumper crop season.

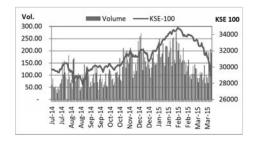

Owing to rising real interest rates, the State Bank of Pakistan slashed the discount rate by 100bps to 8.0%. The regulator is also working on introducing a target rate that will be placed between the interest rate corridor. This step ought to allow the Central Bank to better manage money market liquidity and curb excess volatility.

Going forward, we expect the ongoing economic recovery to persist. This should prove instrumental in increasing aggregate demand, supporting GDP growth and strengthening foreign investor confidence.

### Capital Markets Review

### **EQUITIES REVIEW**

The KSE-100 index posted a volatile trend over the quarter, posting 7% appreciation over January and 12% contraction over February and March combined. On net basis, the index lost 6% over the quarter on account of hefty foreign selling and profit taking.

A correction of this magnitude was last seen in May 2010 when Capital Gain Tax (CGT) was about to be implemented.

Interestingly, positive developments like decline in the discount rate, Moody's outlook upgrade on Pakistan Bonds, IMF's quarterly tranche disbursement and an external account surplus were all ignored by the stock market during this corrective phase. This hefty fall on non-fundamental issues makes us optimistic that the market has the ability to recoup lost ground once technical overhang is resolved.

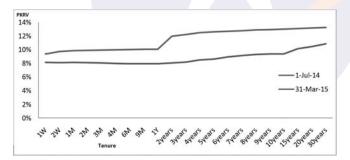

Chemical sector, Household Goods, Food Producers and Electricity sector led gains on the bourse, while Pharmaceuticals, Banking sector, Personal Goods and Oil & Gas sector were most adversely affected on account of uncertain pharmaceutical pricing policy, feared contraction in net interest margins (NIMs), lower yarn exports and fall in crude oil prices, respectively.

### MONEY MARKET REVIEW

The State Bank of Pakistan announced three monetary policies over the period, slashing the key policy rate by 50bps, 100 bps and 50 bpssince November 2014.

In the wake of sharp disinflation that saw headline inflation drop from 7.9% in Jul-14 to as low as 2.5% in Mar-15, the Central Bank eased the rate to spur demand for loanable funds and encourage aggregate demand across the economy.

The easing instituted by the regulator since November has benefited money managers having high bond exposures. The yield curve has shifted lower significantly since end of 2014, pushing PIB yields lower. It is worth noting that 3Y, 5Y and 10Y PIBs have lost as much as 123-141bps over the quarter in the secondary market.

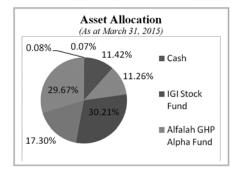

### Fund Operations and Performance

### Alfalah GHP Capital Preservation Fund

The fund was launched in October 2015, since its launch the fund generated a return of 3.06% while the fund's benchmark returned 1.71% during the same period.

The fund is managed on a constant proportion portfolio insurance methodology and is actively allocated between equity and fixed income portion. Despite sharp decline

in the equity market in the month of March, the fund managed to stay in the green zone and outperformed its benchmark.

### **Key Financial Data**

Rs. In million

Description	Nine month period ended 31 March 2015
Net Assets at end of the period	1,660.237
Gross income /(loss)	52.357
Net Comprehensive income /(loss)	49.312
Net Assets Value per Unit (Rs.)	103.0611
Issuance of units during the period	1,628.324
Redemption of units during the period	18.612

### **Future Outlook**

Going forward, we believe the market shall continue to perform well on the back of strong overall corporate results. We believe investors will benefit more from bottom-up investment philosophy as good opportunities are available in selected scrips that carry high return potential. Hence the equity linked funds should remain with heavy market exposure.

Lower interest rate regime will make medium to long term bond more attractive than short term instruments hence the focus will be to maximize or maintain high duration on all fixed income portfolios.

### Acknowledgement

The Directors express their gratitude to the Securities and Exchange Commission of Pakistan for its valuable support, assistance, and guidance. The Board also thanks the employees of the Management Company and the Trustee for their dedication and hard work and the unit holders for their confidence in the Management.

### 7 Provision for Workers' Welfare Fund

The Finance Act, 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all Collective Investment Schemes / mutual funds (CISs) whose income exceeds Rs.0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard,

a constitutional petition has been filed by certain CISs through their trustees in the Honourable High Court of Sindh (SHC), challenging the applicability of WWF to the CISs, which is pending adjudication.

In August 2011, the Lahore High Court (LHC) issued a judgment in response to a petition in similar case whereby the amendments introduced in WWF Ordinance through Finance Acts 2006 and 2008 have been declared unconstitutional and therefore struck down. In March 2013, the SHC larger bench issued a judgment in response to various petitions in similar cases whereby the amendments introduced in the WWF Ordinance through Finance Acts 2006 and 2008 respectively (Money Bills) have been declared constitutional and overruled a single-member Lahore High Court (LHC) bench judgment issued in August 2011. However, as mentioned above, the constitutional petition challenging the applicability of WWF on mutual funds is still pending adjudication and not yet decided. The Management Company has considered the implications of the above judgment of SHC and is of the view that the matter will eventually be settled in its favor and WWF will not be levied on the Fund.

Further, in May 2014, the Honourable Peshawar High Court (PHC) held that the impugned levy of contribution introduced in the WWF Ordinance through Finance Acts, 1996 and 2009 lacks the essential mandate to be introduced and passed through a Money Bill under the constitution and, hence, the amendments made through the Finance Acts are declared as 'Ultra Vires'.

In view of the uncertainty on the applicability of WWF to mutual funds, the Management Company as a matter of prudence, has decided to make the provision for WWF amounting to Rs.0.999 million up to March 31, 2015. Had the provision not been made, the NAV per unit would have been higher by Rs.0.06 (0.06%) per unit.
